

Art No. RP0004

Laser Lens Cleaner System

Specification:

- This system automatically records the date of every use and displays it on the screen.
- It's has been built with Anti-static material and can effectively clean the laser lens speeding up its reading signal.

Steps for Audio/Video:

- Place the cleaning CD into the machine as indicated by the arrow.
- Select track 3. When the music stops, the cleaning process has been completed.

Steps for CD-ROM:

- Place the cleaning CD into the CD-ROM machine as indicated by the arrow.
- Open Windows and select "Run".
- When instructed, enter D:\SETUPEXE("D" is the CD-ROM drive) and run the installation program. After installation has been completed, double \ click on "CD clean" to begin cleaning.

After the system installation has been completed, your laser lens will be checked to see if it needs cleaning every time you turn your computer on. After each use of the cleaning disc, place it back in its protective case.

Notice: "Please don't use this cleaner in SLOT-IN type Disk Drive. (navigation in AUTO !)"
